Are you breathin, when I'm in the air?
Do you feel me, when you comb your hair?
Can you feel the rain, hit the side, as you walk around?
Like an angels heart, i'll fly high, as a hidden cloud
And you know me
Yes, you know me
I said yes, you should know me
Do you remember me? cause i know you

Do I scare you, when I come too close
Does the room your in, come to sudden cold
I can hear you cry, like a kid, with an injured knee
I can see you pray, for me, before you lay to sleep
Do you know me?
You should know me
I said yes, you should remember me

How can you feel alone, at night, when I'm standing by
your side?
Can you hear me laugh, in the wind, does it ease your
mind?
If you never see, me again, I will always be your friend
Like an angels heart, i'll blend, within the wind
Do you see me?
Yea, you should see me
I can fly, I can fly
How high? as high as the wind can fly

Oh - aye, i'm your ghost
I'm watching over you
Oh, i'm your ghost

If you never let me know, how will I know
How can I be your guide?
Are you fearing death, or life, can you make up your
mind?
Do you know me?
