You say you like to travel
But you don't even have a ride
You say you like walking around
But your shoes won't fit
I like certain people
But with wise words to give
I'm walking down onto the pier
And talk to the voice i hear

Said i'll be leavin
I'm lookin for my wings in the sky
My journey's long over and my bodys tired
So when i'm leavin'
I'll make sure i tell you goodbye
I know somebody really loves me
But i gotta be leavin'

You say you like nothin
But somethings always on your mind
You say you don't think much
But your always telling lies
I can read you
I think you're bout money and greed
I'll pack my bags and be on my way
I can't stay

Said i'll be leavin
I'm lookin for my wings in the sky
My journey's long over and my bodys tired
So when i'm leavin'
I'll make sure i tell you goodbye
I know somebody really loves me
But i gotta be leavin'
