Earth: A biosphere, a complex,  
subtly balanced life support system.

We are floating over the line,  
let us follow our mind.  
All our life we'll wait for the answer,  
and the question is why?

If we are following our mind,  
we can glide into light.  
No one knows if there'll be an answer,  
while we're morphing thru time.

We are floating over the line,  
let us follow our mind.  
All our life we'll wait for the answer,  
and the question is why?

We are just travelers in endless space.

If we are following our mind,  
we can glide into light.  
No one knows if there'll be an answer,  
when we're morphing thru time.
