"Bearer Of The Torch"

Herding a pack of wolves, proclaiming the saturnian
wrath
Bearer of the torch of luciferian light
Satanic reign of terror, mankind be ruled by this
unseen master
His torch cleanse them from error, to bring new order
through death and disaster
Followed by the cult of death, praised for the
peststorms
Summoned in dark cavern places, untouched by the
grace of Christ
Messenger of the holocaust god, he is the bearer of
the torch
Commanding the beasts of hell, the legions of vermin,
rats and the undead
Manifested by shattered bones and skulls
Emanating force of an untamed nature
Claiming earth in his cold grip
Radiating light of a darker kind
