Another ship there blew
We've been hit here too
If only this was through
Will I die here with you
God I really wish I knew

My brothers a few hundred feet to my night
I see them go down in a burning wreckage of flames

The burning oil on the surface
They burn, they drown

Reign of fire, steel that crumble
In rain of fire, enraged is the sea

Under command of Admiral Beatty
The squadron hunt the enemy south
Taken by surprise, forced to retreat
They did not know we foresaw their first draw

Another ship there blew
We've been hit here too
If only this was through
Will I die here with you

Reign of fire, steel that crumble
In rain of fire, enraged is the sea
