

Torchbearer

"Failure's Dawn"

Visit "[Failure's Dawn](#)" on MotoLyrics.com

Sneak and creep yee black children of mine

Sleep in death deep, be my scythe

Swarm about them, yee vermin and flea

Bring dark gifts of plague, poison their souls

Pest forever more, into what is now

For the dying of all that is here

Their lungs will drown in blood, dye their skin pale

Their bodies blistered black

Nothing will stand against yee

For yee are pest evoked and free

Killers in their houses, killers in hearts
