We head back in disgrace  
With the failed vision  
Of Kaiser Willhelm II  
So many lives we've lost

This our blinded weapon  
Fell into depths and despair  
This nation's pride and honour  
Lost and beyond repair

And so many dead  
Now on the ocean floor lie

We head back in disgrace  
With the failed vision  
Of Kaiser Willhelm II  
So many lives we've lost

What have we done  
All was in vain  
All blasts and fire  
Drew us insane

With all the men that went down  
The cold waters embrace

This our blinded weapon  
Fell into depths and despair  
This nation's pride and honour  
Lost and beyond repair

And so many dead  
Now on the ocean floor lie
