From here
no lines are drawn
From here
no lands are owned
13,000 and Holding
Swallowed in the purring
of her Engines
tracking the Beacon here
"Is there a Signal
there on the other side"
On the other side?
What do you mean side of what things?

and you said
and you did
and you said
you would find me here
and you said
you would find me
even in Death
and you said
and you said
You'd find me

But I can't see New York
As I'm circling down
through white cloud
Falling out and I know
his lips are warm
but I can't seem to find
my way out
my way out
of this hunting ground

From here
crystal meth
In metres of millions
In the end all we have,
soul blueprint.
and did we get lost in it
do we conduct a search for this
"from the other side"

From the other side?
What do they mean

side of what things...

and you said
and you did
and you said
you would find me here
and you said
you would find me
even in Death
and you said
and you said
You'd find me

But I can't see New York
As I'm circling down
through white cloud
Falling out and I know
his lips are warm
but I can't seem to find
my way out
my way out

I can't see New York
'cause I'm circling down
through white cloud
and I'm falling out and
I know your lips are warm
but I can't seem to find
my way out
my way out
of your hunting ground

you again
It's you again
I can't see
I can't see New York
I can't see
I can't see New York
from the other side
I Hum from the other side
