It's a happy day, all the water-bugs have gone away.
Not a bird is sitting in it's tree. Not a he, she, it or me.
It's a happy day- Watergate has flown away.
Taking all the floods to sea. Leaving Uncle Sam
happy...

He was an air force man flying in all the news.
She was his only queen, nothing really left to loose.
Yes, he was an air force man flying in all the news.
She was his only queen, nothing really left... to loose...
It's a happy day, all the world has come to stay.
Not a creature sleeps today... The world will not go
away...

It's a happy day...

Let us dream and sleep tonight. All the world in its
might.

((Let's have it top- top fight.))

Yes, he was an air force man flying in all the news.
She was his only queen, nothing really left to loose.

She was his only girl, she called him (??)

He was her only pearl flying out of (dangerzone??)

It's a happy day, we are here together to stay.

Not a person will keep us away. Our life is the greatest
today.

It's a happy day...

This could go on all night, let us ((bed by brightful
night?))

And have a good, good, good... night...
