Oh girl I know you very well
Seen you going everyday
I've never really looked before
But now you take my breath away
Suddenly you're in my life
Part of everything I do
You got me working day and night
Just tryin to get a hold on you

Here in your eyes I've found my paradise
My only chance of happiness
And If I lose you now I think I would die
Oh say you'll always be my baby
We can make it shine
We can take forever just minute at a time

More than a woman
More than a woman to me
More than a woman
More than a woman to me

There our star is only true
People so in love like you and me
And I can see myself (let history repeat itself)
Reflecting how I feel for you
Think about those people
That I know that in a thousand years (I'll fall in love with
you again)

This is the only way that we should fly
This is the only way to go
And if I lose your love I think I would die
Say you'll always be my baby
We can make it shine
We can take forever just a minute at a time
