Don't know where
But I'm sure we'll soon find out
Where we're going I said
Don't know, reruns of caddyshack
Omla bomla, bi de li day
Don't know where the dhali lama is today
Don't know where my heart is roaming to
Before you turn around
Before you turn around
I think I know a little boy
With each day now
I'm tasting the snow beneath my soul

Beneath the souls of my souls
With each day now
You're in me now
Said, omla bomleigh
Said love that bus ride wherever it's taking me
And johnny and mister p hold my hand
Just hold my hand
Omla bomleigh
