"Snow Angel"

Visit "[Snow Angel](#)" on MotoLyrics.com

As the bell brought in midwinter I waited for a sign
A shadow of a wing this has always been

The children know this
That she will come to them, to them, to them

Snow angel, snow angel, snow angel
She'll make her way
And she'll stay for a time, for a time

In the dark of this midwinter the moon slipped from
night
A shadow of a wing, this has always been

The children know this
That she will come to them, to them, to them

Snow angel, snow angel, snow angel
She'll make her way
And she'll stay for a time, for a time

The children know this
That she will come to them, to them, to them

Snow angel, snow angel, snow angel
She'll make her way
And she'll stay for a time and it's time
