One day, you see a strange little girl look at you
One day, you see a strange little girl feeling blue
She'd run to the town one day leaving home and her
country fair
Just beware when you're there, strange little girl

She didn't know, how to live in a town that was rough
It didn't take long before she knew, she'd had enough
Walking home in her wrapped up world she survived
But she's feeling old 'cause she found all things cold

Strange little girl, where are you going?
Strange little girl, where are you going?
Strange little girl, you, I really should, you
I really should be going

I know you are sure
I know you are sure
I know, I know you are sure

One day, you see a strange little girl look at you
One day, you see a strange little girl feeling blue
Walking home in her wrapped up world she survived
But she's feeling old 'cause she found all things cold

Strange little girl, where are you going?
Strange little girl, where are you going?
Strange little girl, you, I really should, you
I really should, you, I really should

Strange little girl, where are you going?
Strange little girl, where are you going?
Strange little girl I, I really should, you
I really should, you, I really should

Strange little girl, where are you going?
Strange little girl, where are you going?
Strange little girl I, I really should, you
I really should, you, I really should, you
I really should be going
