Strange
Thought I knew you well
Thought I had read the sky
Thought I had read a change
In your eyes
So strange
Woke up to a world
That I am not a part
Except when I can play
Its stranger

After all
What were you really
Looking for
And I wonder
When will I learn
Blue isn't red
Everybody knows this
And I wonder
When will I learn
When will I learn
Guess I was in deeper than
I thought I was
If I have enough love
For the both of us

"just stay" you say
"we'll build a nest"
So I left my life
Tried on your friends
Tried on your opinions

So when the bridges froze
And you did not come home
I put our snowflake under a microscope

After all
What was I really
Looking for
And I wonder
When will I learn
Maybe my wish knew better

Than I did
And I wonder
When will I learn
When will I learn
Guess I was in deeper than
I thought I was
If I have enough love
For the both of us

So strange
Now I'm finally in
The party has begun
It's not like I can't
Feel you still
But strange
What I will leave behind
You call me one more time
But now I must be leaving
