Every night I sit alone  
Waiting to see you at my door  
Arriving at the usual time  
Waiting to share your love with mine

Well I've waited a lifetime just to find you  
But you have to believe it's success that were seeking  
Then in a few months you can come home to me

It's the job that you need  
It's the school that you have to complete  
You just have to go on with your days

But I'll be waiting right here as I am  
But before you leave make me a promise I'll need you  
to keep

Remember me while you're away  
Think of me when you're alone  
In everything that I do  
I do it in two's  
'cause I'll always be walking with you  
'cause I'll always be walking with you (side by side)  
Always be walking with you (in my mind)

Always be walking with you (always be walking)  
With you

Facing another empty evening  
Lying alone here in my bed  
You keep my mind from my job

But you lead my life with love

You hold my chin up high  
You're love shines through my eyes  
Your soul walks by my side  
Keeping this body alive

As I run to catch the bus  
I get a strange look or two  
'cause instead of just buying a ticket for me

I also buy a ticket for you  
Now some people say I'm crazy  
But it's the only way not to be blue  
In everything that I do  
I do it in twos  
'cause I'll always be walking with you  
Always be (x4)  
I'll always be walking with you

Remember me while you're away  
Think of me when you're alone  
In everything that I do  
I do it in two's  
'cause I'll always be walking with you  
'cause I'll always be walking with you (side by side)  
Always be walking with you (in my mind)
