Don't be scared yeah I know you're scared
But you don't have to fear anything cause baby I hear
you, I feel you
I know the girl, yeah she let you down, let you down
You were hurt when you came around
You think that I'm like her, but I'm not like her

Now you believe every girl's gonna leave you in a
deserted world
But I'm not every girl

I'll be here for you
When everybody's gone
I'll be here for you
When people come and people go
And break away
You may have good days and bad days
But I'm here to stay

I can wait, we can wait, I can give you time
Just take it slow cause I know you've been disappointed
Taken for granted
I've been hurt, I've been down, I've been down before
I got used to someone till he started to use me
Finally use me

You crave and you cry and you run and you fall
And get up again, but I'm ok now

I'll be here for you
When everybody's gone
I'll be here for you
When people come and people go
And break away
You may have good days and bad days
But I'm here to stay

Yesterday was yesterday
Today will be a better day
And tomorrow is what we want it to be
The future's written in the stars
Faith in me is all I ask

I'm everything you see in me

I'll be here for you
When everybody's gone
I'll be here for you
When people come and people go
And break away
You may have good days and bad days
But I'm here to stay
