Six days before
The foreboded doomsday
Appeared four
Mounted spectre
Apocalypse...
The four horsemen personate
Pestilence and eath
Starvation and war
The four servant of evil
Apocalypse...
Oceans have
Overflowed everything
Clouds burst to the earth
Earthquake begun
Everywhere
Broke up the lava
Towns were destroyed
By the seas and lava
Four of them
Were standing quietly
Watching from the sky
What was happening down there
When the last human was killed
They have announced with
Their bloody swords
The deadly storm ended
Apocalypse...
The world looked like before
It was the day of the doom
They have started their way
Up to heaven and down to hell
Apocalypse...
