[Vokal: Zoran Sandorov]

In the Land of the Rising Sun
On the Road of Eternity
I can see people comes to me
With love and honesty

On the magic lake from the tales
Feelings like I'm dreamin' here
Many years gone behind my eyes
Across the water and hills

I love Japan, Oh Lord I love Japan
I called my heart
In memories again

I love Japan, Oh Lord I love Japan
Whatever done
My love remains the same

Down on the Old Hiroshima Way
Imagine skies-blue are full of pain
Misty morning when I lose and prey
And found my Lady of Grace

Anytime...
In All of my Time...
