Man, look around  
Dismembered people, frozen sun  
So, are you strong enough for  
Ice and rain, and cold black steel?  
Can you reach the sky of Immortality?  
(On the wings of mighty wind!)

Just look into the eyes of God  
And follow Destiny  
With the sword in hand... of fighting man...

Fly across the sea  
Of the excavated eyes  
All around is only pain  
Slayers kill our children!  
Filial blood on the sky  
We must revenge!!!  
(We must revenge!)

Time after war  
Is far away into the future  
Now you are armed 'n' ready -  
Don't stop kill our enemies  
Can you reach the sign of the final Victory?  
(On the wings of mighty wind!)

Just look into the eyes of God  
And follow Destiny  
With the sword in hand... of fighting man...

Fly across the sea  
Of the excavated eyes  
All around is only pain  
Slayers kill our children!  
Filial blood on the sky

Fly across the sea  
In the lights of thousand years...
