Cannibal

Everyday I can hear voices in my head
They tell me to eat other humans and fuck their
corpses
Im lurking in the shadows with my axe
Ready to murder and satisfy my sick hunger
I don't care if they are males or females
Older or younger, I kill and eat everybody
After my hunger is filled, I rape those mutilated
corpses
I am one sick fuck and there is no stop for me
Now those voices tell me to eat myself
I slice my stomach open and rip out my guts
Feasting with my entrails, blood spills
I am one sick fuck and there is no stop for me
