Raped By Elephants

I was visiting in africa two months ago
My goal was to see all those wild animals
Most excited I was when I came close to elephants
They were so big and somehow so scary
Something happened when I snapped a picture
Three elephants surrounded me
One of them ripped off all my clothes
Second elephant came on me and started to spread
my buttocks
With it's huge trunk
I screamed in agony when I felt it started to shove up
my ass
Third elephant forced me to take it's giant cock in my
mouth
I sucked like a whore while I was assfucked by elephant
trunk
After all it wasn't too bad at all
It took only about ten minutes and cock in my mouth
started to cum
Extremely huge load of elephant sperm filled my throat
and
Spurtd allover my face
I was completely fucked up, but elephants had one
more thing to do
All three of them huffed and puffed shits on me
Then they left me alone with my ripped asshole
I'll never go to Africa again
