"By Their Corpse"

I am alive to kill them all, to mercilessly butcher, I bring
genocide to your lives
I am ready to murder, hack, kill and fornicate, by their
corpse I masturbate
Blood is shed, devouring death, erase her life and
forget

I am ready for another murder, so I kill to relieve the
hunger

Face smeared, slowly decay, dripping pus, head
removed, dormant skin
Punctured eyes missing, the ones I killed a week ago,
their names I can't remember
Not sure where my life went wrong but I know I love to
hurt her

I am ready for another murder, so I kill to relieve the
hunger

By their corpse I stand and stare how much I can bear
By their corpse I'm aware, there's no life I would spare

I am alive to kill them all, to mercilessly butcher, I bring
genocide to your lives
I am ready to murder, hack, kill and fornicate, by their
corpse I masturbate
Blood is shed, devouring death, erase her life and
forget

I am ready for another murder, so I kill to relieve the
hunger
