Thrashing past the speed of light
Unleashing rapid fire
Possessed with speed my fingers bleed
Stop for nothing, overload
Take it in your face
I conquer all and watch you fall

Move your ass
Or you won't see tomorrow
I'm exceeding the limit
And I'm closing in
Harder, faster, ripping through
Deceiver will drop you

Rushing through emergency
Convulse from sudden shock
You gasp for air but do I care?
Condemned as medics scream code blue
You're wheeled to surgery
With a trance you have no chance

Move your ass
Or you won't see tomorrow
I'm exceeding the limit
And I'm closing in
Harder, faster, rip your face
Deceiver, deceiver

Flashing right before your eyes
Illusionary tricks
Psychotic fire flaming sparks
Beneath my scorching pick
Deny your termination
And see you crawl below
Implant the tumor permanent
And serve the fatal blow
Cause he don't play too fast
You're just way too slow

I crave upon your darkest fear
And I love to see you in pain
And now deceiver stalks again

Cause the game is over for you
My friend
