Staring into blackness  
Waiting for my prey  
Screamin' from the cellar  
Souls will die today  
Frothing from my living hell  
Rotting from decay  
Your death is here  
Your god has come to take it all away

You see me in your sight  
Bloody corpse tonight  
I see you run in fear  
Cause this time you watch  
Ignominious, ignominious slaughter

Prowling through the darkened town  
Stalking from the grave  
My victims wake a gory death  
Their pieces that I save  
Never look behind you  
Just pray that you die fast  
The waves of blood shall cleanse the walls  
This time you will not last

You see me in your sight  
Bloody corpse tonight  
I see you run in fear  
Cause this time you watch  
Ignominious, ignominious slaughter

Vicious, brutal nightmare  
Seeping through the womb  
Forceful thrashing vengeance  
I now command your doom  
My mind is my asylum  
Embedded ripping flame  
The legions of the morbid  
Come to play my game  
I will slaughter you

Buried in the ashes  
Beneath the icy snow

Forbidden in the shadows  
The fires wait below  
I've risen from the evil  
Been scalded from the war  
And I'll show all mercy no more

Perform the sacred ritual  
Among the mangled dead  
Attaching bloody ligaments  
Below the virgin's head  
Sacrifice beneath the cross  
Intestinal bouquet  
Behold the wretched masterpiece  
Dismembered art display

You see me in your sight  
Bloody corpse tonight  
I see you run in fear  
Cause this time you watch  
Ignominious, ignominious slaughter
