Caught between the iron wall
The light shines through the door
The mist seeps out
The heat will rise
Deadly to the core
The jagged chains will tear through you
Your dark grave soon awaits
You're bruised and torn
The beast is born
To open up the gates

Enter the chamber
Of destruction
Enter the chamber of hell
We'll summon the liar
Take heed to his fire
The chamber where the tortured prevail

The guillotine is set to poise
Crushed between the steel
Your life has flashed before your eyes
Now you thrive to kill
The hatchet gleams its blade tonight
The mace shines in the sun
Your nightmare's now reality
The onslaught has begun

Enter the chamber
Of destruction
Enter the chamber of hell
We'll summon the liar
Take heed to his fire
The chamber where the tortured prevail

The massacre is now your death
A chainsaw to the head
Your body's drilled with craters
Deep where maggots lay their dead
Forever bodies remain in pain
In the chamber of despair
The palace of torture is waiting for you
So enter if you dare
