

Torture Killer "Heading Towards The Butchery"

Obsessed in guts and gore
Whore hating carnivore
Laugh now 'cos you'll never laugh again
With bare hands I snap your neck

Gut tearing sodomy
As I begin the butchery
Uncontrolled Brutality
Cut throat victims unaware they're...

Heading towards the butchery
Heading towards the butchery

He came with an axe in his hands-he came to hack
He came with knives and blades to slash the living
flesh
To kill them all in a blood spraying carnage
To kill them with a vengeance
Dead bodies I leave behind
To be discovered in pieces

Laugh now 'cos you'll never laugh again
With bare hands I snap your neck
Teaching a lesson in violence, only you end up dead
To kill them all in a blood spraying carnage
To kill them with a vengeance
Dead bodies I leave behind
To be discovered in pieces

Twisted personality
Something grows in within
I feel like killing!
