Kill

I'll put a thousand ripping slugs through your fucking
head
I'll decorate the walls with the scraps of your brain
I'll make you swallow a ton weight pile full of lead
When I'm done there won't be nothing left
I'll cut and slice your body with piece of blunt steel
I'll tear you open wide and rip your guts for you to see
I'll eat your organs and your bowels while you still feel
Another victim of a killing spree

I'll take a knife and stick it within you
I'll stab and hack until I'm fucking through
Your blood spurts and spills, I drown in disgust
Motivated to kill, I'll go on and on

I'll take the chainsaw and sever you in parts
I'll she'd you bloodless and eat your fucking heart
Your blood spurts and spills, I drown in disgust
Motivated to kill, I'll go on and on

Kill

You can't stop me
I will kill again
You won't find me
You'll be dead
