In the world I'm living
Hell's in front of my eyes
Ignorance stands to burn the reasons of mankind
Black flames of pure insanity
From the sky will come the truth
A threat reveals to the world: power in the hands of
fools

Screams of panic in the building on fire
Slaves of faith against the beast's empire
And the flames consuming higher and higher:
Critical time in the dawn of a new day
Bound new era by the evil's way
Where is peace? It's gone away!

Towers on fire!

Diabolical forces ruling
From the acts of human race
This kind of situation finishes in disgrace
Blind by faith and hate
An unruly wish to kill
Across the times this same shit comes to spill

Hopeless people walking around
A cloud of dust and terrible sounds
The burning tower is falling to the ground
The world's watching: while you die
Death embraces you! You can't deny
I'm not guilty for you folly fight

Towers on fire!

Innocent people had paid with their lives
They were used in their ominous fight
For all that you saw, you can't deny

Awful thoughts unleashing hate
Leaving the world at the edge of hell's gate

The wheels of doom continue their way

Unveiling the facts: prepare to pray
Time is over and the sky is so grey!

Page of blood! Terrorism condition
The world walks to the last premonition: death!

[Repeat verse #1 and #2]
[Chorus]
