"Holiday In Abu Ghraib"

Listen to the screams of suffering and pain
Sadistic intent
Prisoners are treated in an unholy way
Physical torments
Forced them to remain in stress positions
Raw cruelty and vile conditions
"No exceptions, violence is the rule"
If you obey you're such a fool!

Holiday in Abu Ghraib
Bloody nights and restless days

Military dogs are biting their backs
Torture's in progress
Like gamblers rolling the bones to decide
Who'll be the next in line
You go ahead with this kind of brutality
'Cause you're protected by a web of fallacies
Never agree with this bullshit
What a shame to your families

Abu Ghraib torture

Who is responsible for this legacy
Of shame
Politicians have their hands stained
Blame
Looking for scapegoats to their evil plans
Under a superior command
You don't give a fuck who you represent
America

Rest In Pain
