A new empire will rise
Bringing affliction inside
Who knows the real plan
Of the fall of man
Dark sea of blood and sand
Unholy dead land
They're killing to revive
The power of demise

Chaos, confusion, fear
Doomsday is here

Addiction to make war
Covered the earth with gore
In a world of fools
Nuclear power rules

Domination Desecration Termination

Thousands of people are dying
"A mission I must comply"
Born to hate the beast
Proudly they raise their fist
Manifestation of pain
Revenge with might and main
Managing facts for good
Disfiguring the truth

Hear the tunes of war
Disgusting sores

Hidden conspiracy
By flames of liberty
When peace dies
This earth will know it's cry
