Panzer division marching to kill  
Bloody days... run to the hills  
Feel the impact of the bombs in the land  
And hear the song of the end  
A lot of jews transported to hell  
In your eyes a silent yell  
Under the flag of superior race  
Auschwitz-Birkenau... just disgrace

Under the wings of the empire

Slaves in a factory called death  
Awful stench of burned flesh  
Gas chambers working everyday  
Scorching one by one total disarray  
Trench of corpse rotting to the sky  
Portrait of a mass homicide  
Agony! Anguish! Nothing to feed  
Old men, children dying by the breed

Under the wings of the empire  
Wings of the empire  
Under the wings of...  
Wings of the empire!!!

Fuhrer rules with iron hands  
In the name of the Deustchland  
Made with blood and malevolence... goals!!!

Walk to death, cursed destiny  
Pile of deads, enormous butchery  
A cold cruelty behind of the barbed wire  
Torture! Humiliation! Meanness desires  
Dying vision, smell of demise  
Seduced by slanders and his lies  
The open wound of stupidity  
Monsters living your own monstrosity

Under the flag of the job and liberty  
Soldiers in service of the tyranny  
Try to make a new reich  
Remember the holocaust, aching pride

We don't need a new genocide  
We don't want to hear the battle cry  
I reject your repressive way  
I spit on your swastika... and in your face

Under the wings of empire *[bis]*
