I eat cannibal
Feed on animal
Your love is so edible to me
I eat cannibals

I eat cannibal
It's incredible
You bring out the animal in me
I eat cannibals

What can you do
You're in a stew
Hot hot cook it up
I'm never gonna stop
Fancy a bite
My appetite
Yum yum gee it's fun
Banging on a different drum

And I eat cannibal
Feed on animal
Your love is so edible to me
I eat cannibals

I eat cannibal
It's incredible
You bring out the animal in me
I eat cannibals

I like the spice
Tasty and nice
Roastin vitamin
Forget the dietin'
Mmm such a dish
I can't resist
Healthy recipe
What you got is good for me

And I eat cannibal
Feed on animal
Your love is so edible to me
I eat cannibals

I eat cannibal
It's incredible
You bring out the animal in me
I eat cannibals

All I wanna do
Make a meal of you
We are what we eat
You're my kind of meat

Got a hunger for your love
(Hot pot cook it up, I'm never gonna stop)
It's all I'm thinkin' of
(Yum yum gee it's fun, I'm banging on a drum)
Give the world a bone
(Roastin vitamin, forget the dietin')
I got steak at home
(I eat cannibals)

[Extended version only:
I don't need no take away 'cause Chinese food is so
risque
The menu is the venue where your heart is,
Can't you see I'm not into foreign platters, loving you is
all that matters
You're the kind of bull who's put the animal in me]

I eat cannibal
Feed on animal
Your love is so edible to me
I eat cannibals

I eat cannibal
It's incredible
You bring out the animal in me
I eat cannibals

Roastin', toastin', you're the one I'm boastin'
Eat me, eat you, incredibly delicious too
Gourmet, flambe, serve you up an entree
Intake, home bake, you're the icing on the cake

Eat me, eat you, incredibly delicious too
Gourmet, flambe, serve you up an entree
Intake, home bake, you're the icing on the cake
Full up, can't stop, dicing on a chop chop
