

Total Devastation

"Divine"

People are blind
Absolute power of human mind
Visions of fear I see
Something horrid controlling

Human mind
Makes killing kind
Wheel of fortune
To make your future

We don't see until it's done
Crush it, chop it, cut it
Piece of Christ for everyone

People are lies
Religious piece of rotten waste
Inner self contamination
Truth not revealed

We don't see until it's done
Crush it, chop it, cut it
Piece of Christ for everyone

Despair, cries of the lost hope
Forever, battle of immortality

Wake now - wake now - wake now in hell

We don't see until it's done
Crush it, chop it, cut it
Piece of Christ for everyone
