

## **Total Devastation "Fleshing"**

Revolting thought of licking open wounds  
Taste the puss in your mouth  
Scratching like a dog in infection  
Vomit starts to wake you up

You are only a stain of what you used to be  
Decaying away  
Your cells are a tormenting disease  
As you are rotting away

Fleshing

Disgusting thought of ripping your skin  
Feel the pain as it tears your flesh  
Crying out for help or salvation  
Sickness wakes you up

You have almost gone where you should be  
Fading away  
Your soul is packing it's bags  
As you are dying away

Skin yourself alive

Decaying away - rotting away  
Fading away - dying away
