Multiply your pain three times  
Head shakes pressure grows  
Victimized with vulgar lies  
Throwing up now six times

Pale face anger grows  
Had enough with your life  
Feel the need to tell someone  
In my hour of blackness

Black, fuck, god, dead  
Make them go away  
Puss, suck, god, dead  
Rip them off me

Won't someone

Stabbed someone four times  
Red blood cold death  
Roaring breaks in my mind  
Throwing up now nine times

Gather my mind fragments  
Get them together
