

Total Devastation **"Ground Zero"**

Visit "[Ground Zero](#)" on MotoLyrics.com

Awaken to the unknown
Realize the truth that has been done
Power of afterlife
The dreams will all fade

Battling against it
Trying to fight your way out
Immediate stroke
No use refusing to die

Tortured to the limit
Fear of yet unseen haunting
Screaming hurts lungs
Eyes bleeding blood

Forever dying in the depths unknown to man
Falling forever to the endless suffering

Finally the time of death
It comes to everybody
Force too strong
The life will all fade

Forever dying in the depths unknown to man
Falling forever to the endless suffering

Last sigh from your lungs
The moment when life passes by
Darkness falls
Awareness of black

Avoiding death with your last resources
Everyone dies when it's time to go
But I'm not sure about myself
Avoiding death with your last resources

Forever dying in the depths unknown to man
Falling forever to the endless suffering
