

Total Devastation

"I Am God"

All hell is breaking loose
They fall and beg for my dominion
I command and everybody dies
For the divine union

I am pain and desire
I am forbidden dreams
I am flames in your fire
I am reality

I am god
I am not salvation

Forever coming again and again
You are close to death
I give you the second coming
You are close to my kingdom

I am death and starvation
I am full of lies
I am devastation
I am the pain

"My body is the roadmap of pain
But pain has it's reward
Power of the mind is absolute"
