Burn mark forced to bear
Chaos my only friend
Fear in the hearts of men
To terrify all the rest
Take no shit and bury the dead
'til no more blood is shed

Everyone - knows my name
Everyone - in this world insane

So you can only die once
Someone is bringing the doom
Would you like to see more than that?
The others will be here soon

Suppose time has come
Murder the vicious one
Fake is the myth of god
To read between the lines
Eat no shit and give the fist
'til no more love is left

Murderous - vicious human being
Murderous - chaos within

Everyone - knows my name
Everyone - in this world insane
Everyone - knows my name
Murderous - in this world insane

So you can only die once
Someone is bringing the doom
Would you like to see more than that?
The others will be here soon
