Shoulder to shoulder  
Tooled up to the teeth  
No rules, no morals  
The moment when everything goes

Anticipation, can't sleep  
Can't hold a moment still  
Hold it in, let it grow  
Prepare for the worst

Shoulder to shoulder  
Tooled up to the teeth  
No rules, no morals  
The moment when everything goes

This is what you came for  
Can you take it or not

Face your enemy and face yourself  
Stand strong in the front line  
No mercy, no surrender  
No turning back, the charge is on  
Pure violence - no limits  
When the fist meets the flesh

This is what you came for  
Can you take it or not

Shoulder to shoulder  
Tooled up to the teeth  
No rules, no morals  
The moment when everything goes
