you are gone gone away
you have seen seen my way

and now the time has past
we knew that would not last
and i say these days are gone-ha-han
these days are gone
you have seen that these days have gone these days
have gone-ha-han these days have gone
youu have seen (background)

you have lost, lost your way
thought you'd come, come my way

and now the time has past
we knew that would not last
and i say these days are gone-ha-han
these days are gone
you have seen that these days have gone these days
have gone-ha-han these days have goneeeehhan
youu have seen (background)

these days are gone, these days are goneeeeee
these days are gone, these days are goneeeeee
these days are gone, these days are goneeeeee
these days are gone, these days are goneeeeee
