Verse 1

I like the way you tell me.
I like the way you clear your throat.
I like the things you do.
I like the things you don't.
And you like the way I make you feel.
When it's just me and you.
No one can touch the surface when I'm touching you.

Chorus

Today is the way it is.
Today is the way it was.
Be the expression on your face
It's another taste of love.

Verse 2

And we like the way we never fight.
We like the way it's always been.
We like the things we do.
We do it again.
And we like the way it always ends.
When it's just me and you.
No one can touch the surface when I'm touching you.

Chorus (repeat)

Bridge

We can sit and laugh for hours.
On the couch or in the shower
We love the way...

Chorus (repeat)
