"Coming To Life"

Visit "[Coming To Life](#)" on MotoLyrics.com

April is not the cruellest month
If I may disagree
With the eloquent gloom
All winter long the greenshoots hiding
Under ice and snow
While they wait for the sun
While they wait to become

I can feel it coming to life
Can't you feel it coming to life?
Now for real it's coming to life
Like a symphony

You in loves forest hibernating
Counting all the wounds
In your hearts history
Like the rings of a tree
Me voted the least likely
To believe in spring
I was cool with Reverb
'Til love threw me that curve

I can feel it coming to life
Can't you feel it coming to life?
Must be Real love coming to life
Like a symphony
What we missed is coming to life
Slowly kissed it's coming to life
All we wished for coming to life
Like a symphony
