"No One But You"

Just yesterday
I wandered lost
Inside some loneliness
My love-worn heart
Could not undo

But now your Rainbow's shining
through
Somehow, now there's no one but you

You gave me hope
You tuned my heartbeat
To one simple note
You wrote the Answer
With you Smile

So now my Heart is smiling too
Somehow, now there's no one but you

When life goes wrong
I simply listen to this
Inner song
You love has taught me
How to hear

And now your Star will steer me true
Somehow, now there's no one but you
