One step nearer the edge

You take me so much closer

One step nearer the edge

If I should fall

Will you throw me down your line?

You see, when I fall

I really go down.

And it's so uneasing

To think you're with me all the time

Yes it's so uneasing

Are you really, really with me

All the time?

Will you pull me through

The next time

Will you lead me through

The next time

The next time... the next time

When I'm one step nearer the edge

You take me so much closer

You take me so much closer

One step nearer the edge

If I should fall

Will you throw me down a line?

You see when I fall

I really go down

I go down

Go down

I go down
