I fear that we no longer know  
The same words  
I fear that this wearing heart  
Is falling faster now  
I guess it's safe to say  
That these, nights were meant to be

In you're words, you sing to me  
And until the, end of time  
Remember, that it was you  
Who turned darkness into day

In this heart you're  
You're words are saved.

We close our eyes  
We close our eyes

Until we fall,  
To loveless.

I fear that we no longer know  
The same words

I fear that this wearing heart  
Is falling faster now

I guess it's safe to say that these  
Nights were meant to be
