

## Tower "Luciferion"

Visit "[Luciferion](#)" on MotoLyrics.com

A suicide the birth of a vampire  
Deep in his lair gasping for air

Luciferion...

Spreaded wings fly out and sunset  
So high above back before dawn

Luciferion...

I feel free again I don't want to think  
Don't make me care I'm so fucking tired  
I gotta stay awake leave me alone  
Help me hate the world and love and death  
I know my way I'm here to stay  
Don't put me down my life goes on  
Every one has the key to door of the hell  
I feel free again I don't want to think

Luciferion...

A suicide the birth of a vampire  
Deep in his lair gasping for air  
Spreaded wings fly out and sunset  
So high above back before dawn  
I feel free again I don't want to think  
Don't make me care I'm so fucking tired  
I gotta stay awake leave me alone  
Help me hate the world and love and death
