I see the land
I'm hidden in the shadows
I dream with open eyes
I let the fire
What warm me inside?
I calm the pride for me
Tears flow down
Into magic
I feel an ecstasy
When I kiss your lips
I touch body of fay
For run into spell
I take the dark on my hands
Travel through our dreams
I close my eyes
For take you again
I am the vampire
I need your blood
The love, kiss
I take your hope
Evert night I'm leaving
I fly in your dreams
I want be Vampire
I want be die...
