

Towers Of London "Beaujolais"

Visit "[Beaujolais](#)" on MotoLyrics.com

She was a girl from the U.S.A
Used to living life in luxury
Now she's drinking beaujolais
And I dont like her anyway

Went and got a job workin for her dad
She didn't have to do it cause it weren't that bad
I didn't pass maths, failed history well
I got a job but you got a degree

I feel there something coming over me
I see your face on the T.V. screen
No its not digital its black 'n' white
Ain't got no money in a nine to five

(Chorus x1 and then x2)
Money maker, she's a money maker
If you could see her man you'd wanna waste her
Money maker - fools paradise
You can look but you won't look twice

I am a man with mystery
Not just a product of society
I like my beer when its in the can
And sneakers when they're sold out the back of a van

Waitin' for my week long holiday
I used to go to Hull now its sunny Spain
Look at me now in my dungarees - lol
Cos i gotta job but you got a degree
Money maker, she's a money maker
If you could see her man you'd wanna waste her
Money makers she's a money maker
If you could see her man you'd wanna waste her
