You know you've seen them northern lights  
You've never seen them there before  
We could have been anything that we wanted to be  
We took the easy way out

They're comin out today  
but ive got a thing for Rock and Roll  
and i can hear them say in London, Glasgow, Tokyo  
There's people in the house lining up the streets  
Workers making love in the factories  
but eh oh i feel like a child..

Its got me thinkin tho that

They don't know that its up to me  
Them black holes is where i'm gonna be  
Were just wasting time  
The girls are here and they've got me goin crazy

You got me climbing up the wall  
The Eiffel tower never seemed so small  
Now don't you look the other way  
or you might miss the light parade

There's people in the house, beggars on the streets  
Workers making love in the factories  
and eh oh i feel like a child

Its got me thinkin tho that

They don't know that its up to me  
Them black holes is where i'm gonna be  
Were just wasting time  
The girls are here and they've got me goin crazy

They don't know that its up to me  
Them black holes is where i'm gonna be  
Were just wasting time  
The girls are here and its got me goin crazy

You know you've seen them northern lights  
You've never seen them there before

We could have been anything that we wanted to be  
We took the easy way out

They don't know that its up to me  
Them black holes is where i'm gonna be  
Were just wasting time  
The girls are here and its got me goin crazy

They don't know that its up to me  
Them black holes is where i'm gonna be  
Were just wasting time  
The girls are here and its got me goin crazy  
Read my lips yeah it's got me goin crazy

Yeah it's got me goin crazy!
