I'm gonna give you a heart attack
Gonna shoot you in the back
So dont talk to me
Cos i've seen it all

You better get out of my way
Cos we're not the same
I've done a few things wrong in my life but i'm not to
blame

Yeah i've seen it all, yeah i've seen it all
Done a few things wrong in my life
But i've seen it all.

I get my fun stepping on the cracks
I tried to run but i had a relapse
So dont talk to me
Cos i've seen it all

The constitution never saw me right
Cos we're not the same
I've done a few things wrong in my life but i'm not to
blame

Yeah i've seen it all, yeah i've seen it all
Done a few things wrong in my life
But i've seen it all.
And when i'm near you i dont want nobody else
Cos i'm so in love with myself!

Yeah i've seen it all, yeah i've seen it all
Done a few things wrong in my life
But i've seen it all.
And when i'm near you i dont want nobody else
Cos i'm so in love with myself! my beautiful self.
And when i'm near you i dont want nobody else
Cos i'm so in love with myself!

Goodbye!
